

Servo-assisted 2/2-way diaphragm valve

- Servo-assisted diaphragm valve up to DN 50
- Fix-coupled diaphragm opens without differential pressure
- Vibration-proof, block screwed coil system
- Energy-saving power reduction for all DC variants

Product variants described in the data sheet may differ from the product presentation and description.

Can be combined with

	<p>Type 2518 Cable plug, form A according to DIN EN 175301-803</p>	▶
	<p>Type 1087 Timer, form A according to DIN EN 175301-803</p>	▶

Type description

Valve 0290 is a servo-assisted diaphragm valve. The valve opens without differential pressure. The opening process is facilitated by the fix-coupling of the diaphragm to the magnetic core. The integrated 'soft-kick' function ensures gentle opening. Various diaphragm materials are available depending on the actual application. The range includes variants with a stainless steel body. The solenoid coils are moulded with an epoxy that has a high level of chemical resistance. Kick and drop electronics are moulded into all DC solenoid variants for reduced electrical power consumption.

Process/Port connection & communication	
Electrical connection	Plug contacts according to DIN EN 175 301 - 803 form A for cable plug Type 2518 ▶ Further information can be found in chapter "Cable plug Type 2518, form A according to DIN EN 175301 - 803" on page 10.
Approvals and certificates	
Degree of protection	IP65 with cable plug
North America (USA/Canada)	Further information can be found in chapter "3.4. North America (USA/Canada)" on page 4.
Drinking water	Further information can be found in chapter "3.5. Drinking water" on page 4.
Others	Further information can be found in chapter "3.6. Others" on page 5.
Environment and installation	
Installation position	As required, preferably with actuator upright
Ambient temperature	
Standard version ⁴⁾	Max. + 55 °C
With approval according to DIN EN 161	0 °C to + 55 °C

1.) Measurement at + 20 °C, 6 bar at the valve outlet, opening: pressure build-up 0...90 %, closing: pressure reduction 100...10 %

2.) For versions with high-performance electronics max. 6 switching cycles per minute. For switching cycles exceeding this limit, please request technical advice if necessary.

- 3.) Max. medium temperature for versions with high-performance electronics (encoding .../UC) is 90 °C.
- 4.) For versions with high-performance electronics up to + 70 °C is possible depending on the number of switching cycles. Please request technical advice if necessary.

2. Circuit functions

Symbol	Description
	Circuit function A (CF A) 2/2-way solenoid valve Servo-controlled Normally closed

3. Approvals and conformities

3.1. General notes

- The approvals and conformities listed below must be stated when making enquiries. This is the only way to ensure that the product complies with all required specifications.
- Not all available versions can be supplied with the below mentioned approvals or conformities.

3.2. Conformity

In accordance with the Declaration of Conformity, the product is compliant with the EU Directives.

3.3. Standards

The applied standards which are used to demonstrate compliance with the EU Directives are listed in the EU-Type Examination Certificate and/or the EU Declaration of Conformity.

3.4. North America (USA/Canada)

Approval	Description
	Optional: UL Listed for the USA The products are UL Listed for the USA according to: <ul style="list-style-type: none"> • UL 429 (electrically operated valves)
	Optional: UL Recognized for the USA The products are UL Recognized for the USA according to: <ul style="list-style-type: none"> • UL 429 (electrically operated valves)
	Optional: CSA for Canada The products are CSA approved for Canada according to: <ul style="list-style-type: none"> • CAN/CSA-C22.2 No. 139 - 19 (electrically operated valves)

3.5. Drinking water

Conformity	Description
	Suitable for use in drinking water applications The materials comply with the assessment principles (UBA) for materials in contact with drinking water (TrinkwasserV). PF36: Suitable for products with a maximum temperature of 60 °C (warm water)
	Suitable for use in drinking water applications with WRAS/WRC approval PD23: Sealing materials with WRAS/WRC approval for DN 12...DN 25

DTS 1000024859 EN Version: X Status: RL (released | freigegeben | valide) printed: 14.01.2025

3.6. Others

Fuel gases

Conformity	Description
	Fuel gases (valid for the variable code PO17) The products comply with: <ul style="list-style-type: none"> Regulation (EU) 2016/426 – Appliances burning gaseous fuels and DVGW DIN EN 161 (Automatic shut-off valves for gas burners and gas appliances)
	Optional: DIN EN 549:2023-07 certification The wetted valve seals are compliant with DIN EN 549:2023-07 (Rubber materials for seals and diaphragms for gas appliances and gas equipment) for medium temperatures of 0 °C...+80 °C.

4. Materials

4.1. Bürkert resistApp

Bürkert resistApp – Chemical resistance chart

You want to ensure the reliability and durability of the materials in your individual application case? Verify your combination of media and materials on our website or in our resistApp.
